

October 2013

To whom it may concern,

I would like to show our support for the hard work and training that Christine Clinton has brought to our hotel in the last year as we launched our new cancer care program 'Touch Therapy'.

Christine's excellent knowledge and expertise in her field assured us that we were making the correct decision to launch such a range of sensitive treatments.

Christine's open armed approach meant that we could contact her at anytime during our introduction and training phase with questions and queries, nothing was too big or too small.

Our spa therapists have nothing but praise for Christine's teaching techniques and feel confident when dealing with customer's queries and now has the knowledge to approach a client's illness in a new light.

I would highly recommend you consider cancer care for your hotel. We have received nothing but positive feedback from our local community and more importantly from cancer clients who have seen such positive results from our Touch Therapy program. This has only been achieved by the professionalism of Christine Clinton and the Lindi Skin brand.

Yours Sincerely,

Karen Jones
Director of Sales & Marketing
